RULES AND REGULATIONS FOR LAND APPLICATION OF PAUNCH MANURE AND SEWAGE SLUDGE IN HAMILTON COUNTY

8.12.02 Manure Stockpiling Requirements

1. Compost or raw manure stockpiling shall be part of a stockpiling and application plan approved by the County Board.
2. Compost or raw manure may not be stockpiled for application within 1/4 mile of any occupied dwellings, commercial or industrial facility, or church, school or any other facility operated and/or utilized by the general public other than the applicant's residence.
3. The distance above may be lessened; providing the applicant has signed letters of agreement (waivers) from 100 percent of the owners within the setback area of occupied dwellings, commercial or industrial facility, or church, school or any other facility operated and/or utilized by the general public supporting the proposed stockpiling of manure.
4. Any product stockpiled must be used within an 8-month period.
5. The Conditional Use Permit may be reviewed annually or at any time by the County Board.
6. The permit holder shall present a logbook or similar records for compliance purposes during the annual review.
7. The annual review fee shall be set by the County Board by separate Resolution.

8.13.03 Permits Paunch Manure

It shall be unlawful for any person to use any land, premises, or property in Hamilton County for the storage and disposal of any paunch manure without first making application for and securing a required permit to do so. The permit shall be issued by the Hamilton County Board of Commissioners pursuant to procedures in the Hamilton County Zoning Regulations.

The application shall include, but not be limited to, the following:

1. The name, address, telephone number, and ownership status of the generator of the paunch manure.
2. The name, address, and telephone number of the person who will be disposing paunch manure.
3. The name, address, and telephone number of the owner of the paunch manure application site.
4. The legal description of the paunch manure application site.
5. The current and future use of the proposed application site.
6. The type of vehicles or facilities used to transport paunch manure to the application site.
7. A description of the method of disposal and storage of paunch manure at the application site. If storage or disposal facilities are to be utilized, engineering plans and specifications must be included. Construction of such facilities shall not commence until the plans and specifications have been approved by the Hamilton County Board of Commissioners.
8. A description of the method of application of paunch manure.
9. A description of the method of incorporating paunch manure into the soil.
10. A topographic map of the application and storage site(s) which shall include:

- a. The locations and names of neighboring home sites or farmsteads and adjacent land owned by others.
- b. The location of wells within 500 feet of the application site boundary.
- c. The specific location(s) of proposed storage site(s).

11. Submit a soil analysis of the application site, which analysis shall include:

- a. pH
- b. Soil Cation Exchange Capacity
- c. Heavy metals
- d. Nitrogen
- e. Water Table Evaluation
- f. Percolation tests

8.13.04 Other Permits

No permit to dispose of paunch manure shall be issued unless the generator has first applied for and secured a permit, where applicable, from the NDEQ.

8.14.03 Permits Sludge

It shall be unlawful for any person to use any land, premises, or property in Hamilton County for the storage and disposal of any sludge without first making application for and securing the appropriate Conditional Use Permit. The CUP shall be issued by the Hamilton County Board of Commissioners pursuant to procedures in the Hamilton County Zoning Regulations.

The application shall include, but not be limited to, the following:

1. The name, address, telephone number, and ownership status of the generator of the sludge.
2. The name, address, and telephone number of the person who will be disposing sludge.
3. The name, address, and telephone number of the owner of the sludge application site.
4. The legal description of the sludge application site.
5. The current and future use of the proposed application site.
6. The type of vehicles or facilities used to transport sludge to the application site.
7. A description of the method of disposal and storage of sludge at the application site. If storage or disposal facilities are to be utilized, engineering plans and specifications must be included. Construction of such facilities shall not commence until the plans and specifications have been approved by the Hamilton County Board of Commissioners.
8. A description of the method of application of sludge.
9. A description of the method of incorporating sludge into the soil.
10. A topographic map of the application and storage site(s), which shall include:

- a. The locations and names of neighboring home sites or farmsteads and adjacent land owned by others.
- b. The locations of wells within 500 feet of the application site boundary.
- c. The specific location(s) of proposed storage site(s).

11. Submit a soil analysis of the application site, which analysis shall include:

- a. pH
- b. Soil Cation Exchange Capacity
- c. Nitrogen

12. Sludge shall be applied at the agronomic rate for nitrogen less the soil nitrate reserves.
